

## **Antonoil Adds a New Central Processing Facility (CPF) Project to Service**

Hong Kong, 10 July, 2014 - **Anton Oilfield Services Group** ("Antonoil" or the "Group", HKEx stock code: 3337), the leading independent oilfield services provider in China, is pleased to announce that a new Production Operation Service contract of the Group in Iraq has entered stable operations since billing started in this month. This project involves daily maintenance and management by Antonoil for a newly built Central Processing Facility (CPF) in an oilfield in southern Iraq, at a contract value of nearly USD20 million for an effective period of three years. It is the second CPF project serviced by Antonoil in Iraq. Furthermore, the Group has successfully renewed the contract of its first CPF project for another three years, also at a value of nearly US\$20 million.

CPF operation service is part of Antonoil's Production Operation Service and its price is based on the number and seniority of technical professionals Antonoil commits to the project. Winning the new project is a testament to customer recognition of Antonoil's Production Operation Service, presenting vast room for growth. Meanwhile, Production Operation Service is one of the oil production services required when an oilfield enters the production phase and is characterized with stable revenue and higher visibility. In the last two years, Antonoil has been committed to growing the product lines under its oil production services required in the production phase. The Group's increased capacity and growing contract volume underscores that Antonoil's oil production services are now gaining scale.
